

Sibanyoni Sifiso Siyabonga

📍 Pretoria South Africa | ✉ sifisosibanyoni64@gmail.com | ☎ 068 196 5181

Languages: Siswati, English | Age: 25 | Gender: Male

Professional Profile

I am a motivated and technically skilled final-year Computer Systems Engineering student at Tshwane University of Technology, with hands-on experience in auto electrical systems, PLC programming, digital electronics, and network systems. I have a strong foundation in both hardware and software engineering, with practical exposure to diagnostics, repair, and system design. I am passionate about the electrical industry, software development, and IT-related roles, and I possess excellent teamwork, communication, and problem-solving skills developed through leadership roles and technical projects.

Education

Tshwane University of Technology Diploma in Computer Systems Engineering (Extended) *Final Year / Expected Graduation: 2027*

Specializations: Hardware & Software Systems

Key Modules:

- Digital Electronics & Electronic Circuits

- PLC Programming (Ladder Logic, Instruction List)
- Network Systems & Artificial Intelligence
- Networking (TCP/IP, Routing, Switching)
- Operating Systems (Linux-based)
- **Programming:** C++, C#, Java, Python, Assembly (PIC Assembler), SQL, Html, JavaScript and CSS
- **Tools:** Arduino, Proteus, Processing, MATLAB, Microchip Studio, Git, Quartus Prime, Visual Studio Code
- Proficient in C programming for embedded systems, including microcontroller interfacing, low-level hardware control, and real-time applications

Mayibuye Secondary School | 2020

- **Subjects:** Mathematics, English, Siswati, Physical Sciences, Life Sciences, Life Orientation & Geography

Work Experience

Auto Electrical Assistant

Wellzz Auto – Randburg / January 2021 – December 2021

- Diagnosed and repaired electrical issues in motor vehicles
- Performed battery testing, alternator and starter motor repairs, and wiring installations
- Used diagnostic tools and software for vehicle fault-finding
- Maintained tool inventory and ensured workshop safety compliance
- Gained practical insight into vehicle electrical systems, teamwork, and workshop operations

Leadership & Volunteer Experience

Class Representative – Artificial Intelligence Tshwane University of Technology | July 2025 – Nov 2025

- Bridged communication between faculty and students
- Organized peer study groups and conveyed academic feedback
- Class monitor

Mayibuye Secondary School | 2020

- Assisted with academic support and student queries
- Coordinated classroom communication and discipline

Key Skills

- **Electrical & Electronic Systems:** PLCs, Digital Logic, Artificial Intelligence (ML Agent), Circuit Design
- **Programming & Development:** C++, C#, CSS, Java, Python, JavaScript, Assembly, SQL, Unity & C language programming
- **Diagnostics & Tools:** Arduino, Proteus, Diagnostic Software.
- **Networking & OS:** TCP/IP, Linux, Routing & Switching
- **Soft Skills:** Teamwork, Leadership, Time Management, Communication
- **Methodologies:** Agile Development, Peer Mentorship

Interests

- Electrical system innovation and troubleshooting
- Networking , IT-related roles and Software development
- Mentoring peers and contributing to community development

Certifications

FNB App Academy 2025

- I also developed an understanding of FinTech concepts and customer - focused digital solutions
- Improved digital literacy, problem-solving, and modern workplace readiness
